Hi there, I'm Blessing Luphahla!

I'm a self-taught web developer with a passion for creating dynamic and responsive web applications. I specialize in front-end and full-stack development, leveraging modern technologies to build scalable solutions.

Technical Skills

- Languages: HTML, CSS/Sass, JavaScript/TypeScript, Python, Dart
- Frontend: React, Flutter
- Backend: Express.js, Flask, Node.js
- Database: MongoDB, Firebase
- Tools & Platforms: Git/GitHub, Vercel, Render

Work Experience

Web Developer | Tapiwa Khalid

Bulawayo, Zimbabwe | June 2024 - December 2025

- Developed responsive websites using HTML, CSS, JavaScript, Flask, and Express.js.
- Optimized performance by reducing image sizes and improving loading speeds.
- Built interactive UI components with jQuery, JavaScript, and CSS animations.
- Integrated APIs for dynamic data processing and user interactions.
- Created authentication systems (signup, login, session management).
- Debugged and resolved technical issues in web applications.

Projects

Social Media App

A MERN stack social media application with real-time posts, comments, likes, and user authentication.

github.com/BlessingLuphahla/social-media

Redd Tube / Axe Media

A YouTube clone with dynamic UI, user authentication, and dark/light mode support.

github.com/BlessingLuphahla/Redd-Tube

Social Media REST API

A backend API for user authentication, profile management, and social interactions using Node.js &

MongoDB.

github.com/BlessingLuphahla/social-media-rest-api
