ABOUT ME

Blesssing Luphahla (Thamsanqa) – Software Engineer

I am a self-taught Software Engineer with a passion for building innovative, user-friendly digital experiences. My journey in web development has been driven by a commitment to mastering both coding and design, allowing me to craft high-quality, functional, and visually appealing solutions.

I am proficient in **HTML, CSS, JavaScript, jQuery, Sass, Python, Express, and Flask**, with a strong foundation in front-end and back-end development. My problem-solving skills and keen attention to detail ensure that I consistently deliver results that exceed expectations.
I thrive in collaborative and dynamic environments where I can contribute my expertise while learning from others. Effective communication and teamwork are central to my approach, enabling seamless collaboration and efficient project execution.

Dedicated to continuous learning and professional growth, I actively stay updated with industry trends and emerging technologies. I am eager to join a forward-thinking team where I can leverage my skills to contribute to meaningful projects and drive innovation. Confident in my ability to make a significant impact, I look forward to collaborating with like-minded professionals to achieve collective success.

WORK EXPERIENCE

[05/06/2024 – 01/12/2025]   **Web developer**

Tapiwa Khalid

City: Bulawayo | **Country:** Zimbabwe

- **Developed responsive websites** using HTML, CSS, JavaScript, and frameworks like Flask and Express.
- **Optimized website performance** by reducing image sizes, improving loading speeds, and implementing best practices.
- **Created interactive UI components** using jQuery, JavaScript, and CSS animations.
- **Implemented form validation and AJAX requests** for seamless user input handling.
- **Developed and integrated APIs** to enable dynamic data fetching and processing.
- **Worked with databases** to store and retrieve user data efficiently.
- **Built authentication systems** with user login, signup, and session management.
- **Debugged and fixed issues** in websites and web applications.
- **Collaborated with designers** to convert Figma or Adobe XD designs into functional web pages.
- **Kept up with industry trends** and learned new technologies to improve development skills.
